PROFILE

Final-year International Business Administration student at FTU with hands-on experience in social listening, e-commerce dashboards and in-store retail research. Builds data-driven insights with Python, NLP/LLM sentiment tools and Looker Studio, and turns them into clear recommendations for cross-teams. Seeking a Research-related or Marketing/E-commerce internship.

EDUCATION

Bachelor of Economics — International Business Administration *2023 – Present (Expected 2027)*

Foreign Trade University (FTU), Ho Chi Minh City · GPA: 3.58 / 4.0 · Vietnamese (Native) · English: IELTS 7.0

DATA & GROWTH PROJECTS (SELF-INITIATED, 2026)

Social Listening: Hapas 20.10 Campaign, Threads Sentiment *2026*

Python · Google Colab · Threads scraper · Multilingual BERT

- Scraped and classified 356 top comments with a keyword filter and Multilingual BERT (estimated 88–92% reliability): 75.9% positive, 9.8% neutral, 14.3% negative.
- Identified creative content (male KOLs playing women) as the viral driver, and price (gift box above 2M VND) plus quality and plagiarism doubts as the main risks. Recommended pairing the hook with product-quality proof and a clearer value story.

Crisis Analysis: Fwee Skin-Discrimination Controversy, TikTok & Threads *2026*

Google Colab · Rule-based pattern matching · LLM zero-shot (Gemini 2.5 Flash API)

- Cross-checked sentiment labels with two methods across TikTok engagement over time and Threads reactions to the brand apology.
- Found that the 6.3% of comments demanding a Vietnam exit earned 63.1% of likes, and 93.9% of likes sat in the top 10% most outraged comments; 77.8% of comments were sarcasm or general disapproval. Recommended a fast, direct, market-specific crisis response.

E-commerce Dashboard: KIDO Special-Flavor Mooncakes (mock data) *2026*

Looker Studio · AI-generated mock data derived from limited real data · F&B

- Built an interactive dashboard on 1,000 orders (2.14B VND gross revenue) covering AOV, discount rate by platform (TikTok Shop 7.87% vs Shopee 7.64%), best-selling flavors, pack size, payment methods and monthly net revenue.
- Found bulk orders (20–30 mooncakes) to be the largest revenue band (about 1.3B VND). Recommended a 180g crab-flavor gift set for bulk buyers and seasonal promotions for off-peak months.

Growth Strategy Dashboard: TikTok Middle-Creator Booking (mock data) *2025*

Looker Studio · 3-page report · 1,000 creators · seasonal matching

- Analyzed 25.7B views, 6.02% average engagement rate and 518B VND affiliate GMV across growth tiers, content performance and monetization potential.
- Recommended booking Rapid Growth creators in Beauty and F&B for Q4/Q1 mega sales (booking price 40–60% of the Super Explosion tier with comparable engagement), and flagged about 35% of creators with good engagement but no TikTok Shop (projected 15–30% commission uplift).

ACADEMIC & FIELD PROJECTS

Performance Development Contributor *2025*

5phuttaichinh.com, HCMC

- Validated tool demand with an 83.79% confidence interval via a Google Forms survey, cleaned the data and wrote a Product Requirement Document defining 2 core MVP features.
- Mapped user journeys for 3 investor personas (Conservative, Balanced, Aggressive) and designed content frameworks targeting churn from 15% to under 5%.
- Improved digital workflow engagement by 25% with the 7C framework (WebPageTest, PageSpeed Insights); co-developed a Subscription Advisor Model with a projected LTV/CAC above 3:1.

In-Store Brand Execution & Social Channel Research: Nescafé Decaf *2024*

Marketing Management Course · MT & CVS channels

- Assisted in designing and deploying a consumer survey (100+ responses in 7 days) that established 3 target personas for the launch strategy.
- Formulated an IMC proposal with a data-driven media mix estimated to optimize ad spend by 15%; audited On-Shelf Availability at FamilyMart Binh Quoi and diagnosed supply gaps after a 2-month trial.

In-Store Brand Execution: Mayora Sales NextGen Program *2026*

Kingfoodmart outlets, HCMC

- Conducted 8+ field visits auditing confectionery planograms and share of shelf for Kopiko and Danisa against Orion, Lotte, Nabati and Oreo.
- Identified 2 merchandising bottlenecks (including zero availability of Malkist) and proposed a shelf layout by price tier and color-themed packaging; reported on demand elasticity during 30–40% discount campaigns.

Market Entry & Competitive Analysis: Fairfield by Marriott *2024–2025*

International Marketing Planning Course · FTU

- Scraped and analyzed 1,200+ guest reviews on Trip.com (Beijing, Shanghai, Guangzhou) across 4 performance pillars, isolating a service-quality gap in competitor Atour Hotel.
- Built a PESTEL screening matrix in Excel (10+ macro-variables) that cut market-filtering time by 40%; defended the final strategy for an A+ grade (9.5/10).

LEADERSHIP

Strategic Coordinator *2023 – 2026*

Academic Courses · FTU, HCMC

- Led roughly 70% of 40+ university courses and group projects, organizing workflows and owning final quality checks.
- Key member of Canva-based poster and pitch-deck teams across 15+ courses, with design consistently in the class top 3; research recommendations used in 35+ presentations and submissions.

SKILLS & TOOLS

Analytics: Python (Google Colab), NLP sentiment (Multilingual BERT, Gemini API), Looker Studio, Excel (Pivot Tables, VLOOKUP, HLOOKUP), survey design

Marketing & Growth: Social listening, VOC analysis, IMC planning, SWOT/PESTEL, competitive benchmarking, creator/KOL strategy, user-journey mapping, in-store audits

Communication: Canva (advanced), PowerPoint (advanced), CapCut, Google Workspace, strategic presentation (EN/VI), report writing
